SCRATCHED DAY AND NIGHT

Lady Suffered Tortures with Itching Scalp Humor - One Box of Cuticura Ointment and One Cake of Cuticura Soap Cured Her.

WILL NEVER BE WITHOUT CUTICURA

"My scalp was covered with little pimples and I suffered tortures from the itching. I was scratching all day and night, and I could get no rest. I washed my head with hot water and Cuticura Soap and then applied the Cuticura Ointment as a dressing. One box of Cuticura Ointment and one cake of Cuticura Soap cured me. Now my head is entirely clear and my hair is growing splendidly. I have used Cuticura Soap ever since, and shall never be without it. (signed) Ada C. Smith, 309 Grand St., Jersey City, N. J."

GIRL'S PSYCHIC FEATS

Peculiar Power of a Sioux City (Ia.) Student.

TEACHERS AMAZED AT HER ABILITY

Anna Christie Miller Rends Minds and Compels Inanimate Objects to Do Her Bidding With Ease-Discovery of Her Power Came as Result of Proficiency In School Studies.

Anna Christie Miller, a sixteen-yearold girl of Sloux City, In., attending the public schools, has within a month or so discovered that she has exceptional psychic ability, says a Sloux City dis-

In addition to describing articles held before her when she is blindfolded, telling the amount of a handful of coins which no one else in the room knew. but which was later verified, acquiring because of her peculiar mental qualifications 100 per cent in all her studies and thus earning rapid promotion, this remarkable young girl can make a table dance a jig, move across a room and fall into her lap, send it the opposite direction in the lap of another person on the opposite side of the room, make it stand on one leg, move it by the mere touch of her flugers while a man sits upon it and do other feats that have amazed every one.

Miss Miller is a pupil at the Armstrong school in Sloux City. She went there from Grant Center, In., where ber father is section foreman of a railway, and obtained employment in the boarding house of Mrs. Ella Mahaney. At this establishment she washes dishes and does other work to pay for her board and lodging while she attends school. Her ambition was to become a teacher in the public schools, and her aim in going to Sloux City was to fit herself for this avocation. Now, however, Miss Miller is imbued with another idea. She has discovered that she possesses ability along the lines followed by Anna Eva Fay, the Georgia magnet, and others who have demonstrated psychile power.

The girl has been aware of her peculiar powers not much more than a month. Knowing that she possessed extraordinary faculties, but not recognizing them as such, she needed an ac-

cident to discover them. The discovery came as the result of her proficiency in her studies. At every recitation and in every examinaverts. Macsieg heads the list with tion her markings were 100. Her teachers searched her papers in vain for an opportunity to give her a lower mark-

"But maybe I can help you find them," she

Thereupon she went directly to the dresser in Mrs. Mahaney's room, and from behind that article of furniture, where the ornaments had fallen, she recovered and restored them to Mrs.

From that time on Anna's gifts have afforded amusement and wonder to Mrs. Mahaney's boarders. While the boarders were holding an informal levee in the parlor a few nights ago Anna was requested to undertake experiments in mind reading. A picture was placed before her while she sat blindfolded. She described it accurately. Other experiments were attempted, and in all she proved successful.

Personally Miss Miller is of prepossessing appearance. Although young, she is well developed and has a pleasant face and figure. Her mentality, aside from her peculiar gift, may not age, she being in the sixth grade when her exceptional ability was first discovered, and her scholastic achievements were, if anything, below the average. But she is making rapid adstand complex problems and her ability to read the minds of her teachers that she is fast moving ahead.
